## **NOTICE OF ALLOWANCE**

### ***Allowable Subject Matter***

1. Claims 1, 5, 8-9, 11-12, 16, 19-20, and 29 are allowed.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: the Applicant's invention as claimed, namely a hard coat film comprising a silicone based hard coat layer provided on one side of a multi-layered base having a total thickness of 350 microns or less and consisting of a plurality of the same first resin film and one or more of a second different resin film laminated, wherein the first and resin films (although different) are selected from the group consisting of styrene-based resins, polycarbonate resins, and combinations thereof, wherein one of the resin films has a Charpy impact strength of at least 10 kg-cm/cm<sup>2</sup>, and wherein the hard coat film is applied to the external surfaces of window panes or plastic boards for windows, is neither anticipated nor fairly suggested by the prior art of record.

The most pertinent prior art references of record are the teachings of GB 2 048 167 (hereinafter GB '167) and JP 11-309813 (hereinafter JP '813). Although the aforementioned prior art teach multilayered films in combination with a silicone-based hardcoat layer for application to the external surfaces of window panes or plastic boards for windows, the aforementioned prior art fails to teach the use of a multi-layered base consisting of a plurality of the same first resin film and one or more of a second different resin film wherein each layer is selected from the group consisting of styrene-based resins, polycarbonate resins, and combinations thereof. None of the secondary references of record alleviate this deficiency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian P. Egan whose telephone number is 571-272-1491. The examiner can normally be reached on M-F, 8:30-5.
